California provides two methods for determining the amount of wages and salaries to be withheld for state personal income tax:

- METHOD A WAGE BRACKET TABLE METHOD
- METHOD B EXACT CALCULATION METHOD

METHOD A provides a quick & easy way to select the appropriate withholding amount, based on the payroll period, filing status, and number of withholding allowances (regular and additional) if claimed. The STANDARD DEDUCTION and EXEMPTION ALLOWANCE CREDIT are ALREADY included in the wage bracket tables. Even though this method involves fewer computations than Method B, it cannot be used with your computer in determining amounts to be withheld.

METHOD B may be used to calculate withholding amounts either manually or by computer. This method will give an exact amount of tax to withhold. To use this method, you must enter the payroll period, filing status, number of withholding allowances, standard deduction, and exemption allowance credit amounts. These amounts are included in TABLES 1 through 5 of the EXACT CALCULATION Section.

If there are any questions concerning the operation/methodology of Method B for computer software, you may contact:

Franchise Tax Board, Statistical Research Section - 554 Mail Stop B-26 P.O. Box 942840, Sacramento, CA 94240

SPECIAL NOTE FOR MARRIED EMPLOYEES WITH EMPLOYED SPOUSES: to avoid underwithholding of state income tax liability we recommend that one of the following options be used: Single filing status be used to compute withholding amounts for the greater salaried spouse; OR additional flat amounts of tax be withheld.

Instructions for additional withholding allowances for estimated deductions:

All additional allowances for ESTIMATED DEDUCTIONS that are claimed on "EDD form DE 4" must be used to reduce the amount of salaries and wages subject to withholding by using steps 1 and 2 shown below. If the "Federal Form W-4" is used for California withholding purposes, all additional allowances for ESTIMATED DEDUCTIONS claimed must be treated as regular withholding allowances; UNLESS the employee requests in writing that they be treated in accordance with the following:

- 1. Subtract the employee's estimated deduction allowance shown in the "TABLE 2 ESTIMATED DEDUCTION TABLE" from the gross salaries and wages subject to withholding; and
- 2. Compute the tax to be withheld using:

METHOD A - WAGE BRACKET TABLE METHOD; or METHOD B - EXACT CALCULATION METHOD

If "EDD form DE 4" is used for California withholding purposes, the tax to be deducted and withheld must be computed on the basis of the total number of regular withholding allowances claimed on line 1 of form DE 4.

If the "Federal Form W-4" is used for California withholding purposes, the tax to be deducted and withheld must be computed on the basis of the total number of withholding allowances claimed on line 1 of Form W-4; minus the number of additional allowances for estimated deductions claimed. If Form W-4 does not separately identify the number of additional allowances for estimated deductions, the employee's request must specify the number claimed. The employee's request will remain in effect until the employee terminates it by furnishing a signed written notice or by furnishing an "EDD form DE 4."

Employers may require employees to file "EDD form DE 4" when they wish to use additional allowances for estimated deductions to reduce the amount of salaries and wages subject to withholding.

METHOD B - EXACT CALCULATION METHOD

This method is based upon applying a given percentage to the wages (after deductions) which fall within a taxable income class, adding to this product the accumulated tax for all lower tax brackets; and then subtracting a tax credit based upon the number of allowances claimed on the Employee's Withholding Allowance Certificate (EDD form DE 4 or Federal Form W-4). This method also takes into consideration the special treatment of additional allowances for estimated deductions.

The steps in computing the amount of tax to be withheld are as follows:

- Step 1 Determine if the employee's gross salaries and wages are LESS than, or equal to, the amount shown in "TABLE 1 LOW INCOME EXEMPTION TABLE." If so, no income tax is required to be withheld.
- Step 2 If the employee claims any additional withholding allowances for estimated deductions from DE 4, subtract the amount shown in "TABLE 2 ESTIMATED DEDUCTION TABLE" from the gross salaries and wages.
- Step 3 Subtract the standard deduction amount shown in "TABLE 3 STANDARD DEDUCTION TABLE" to arrive at the employee's taxable income.
- Step 4 Use "TABLE 5 TAX RATE TABLE" for the payroll period and marital status to find the applicable line on which the taxable income is located. Perform the indicated calculations to arrive at the computed tax liability.
- Step 5 Subtract the tax credit shown in "TABLE 4 EXEMPTION ALLOWANCE TABLE"* from the computed tax liability to arrive at the amount of tax to be withheld.
- * If the employee uses additional allowances claimed for estimated deductions, such allowances MUST NOT be used in the determination of tax credits to be subtracted.
- EXAMPLE A: Weekly earnings of \$180, single, and claiming one withholding allowance on form DE 4 or W-4.
- Step 1 Earnings for the weekly payroll period are LESS than the amount shown in "TABLE 1 LOW INCOME EXEMPTION TABLE" (\$189.00); therefore, no income tax is to be withheld.
- EXAMPLE B: Biweekly earnings of \$950, married, and claiming three withholding allowances, one of which is for estimated deductions.
- Step 1 Earnings for the biweekly payroll period are GREATER than the amount shown in "TABLE 1 LOW INCOME EXEMPTION TABLE" (\$753.00); therefore, income tax should be withheld.
- Step 2Earnings for biweekly payroll period\$950.00Subtract amount from "TABLE 2 ESTIMATED DEDUCTION TABLE"-38.00Salaries and wages subject to withholding\$912.00
- Step 3 Subtract amount from "TABLE 3 STANDARD DEDUCTION TABLE" -228.00
 Taxable income \$684.00
- Step 4 Tax computation from "TABLE 5 TAX RATE TABLE": Entry covering \$684.00 (over \$444.00 but not over \$1048.00)

	.,	
•	2% of amount over \$444.00 (.02 x (\$684 - 444))	\$ 4.80
•	Plus the marginal amount	+4.44
	Computed tax	9.24

Step 5 Subtract amount from "TABLE 4 – EXEMPTION ALLOWANCE TABLE" for 2 regular withholding allowances -6.08

NOTE: Table 5 provides a method comparable to the federal alternative method for percentage calculation of withholding. This method is a minor simplification of the exact calculation method described above in that the tax rate applies to the total taxable income with the excess amount subtracted.

METHOD B - EXACT CALCULATION METHOD(CONTINUED)

EXAMPLE C:	Monthly earnings of \$3,500.00, married, and claiming five withholding allowances on form DI	E 4 or W-4.
Step 1	Earnings for the monthly payroll period are GREATER than the amount shown in "TABLE 1 INCOME EXEMPTION TABLE" (\$1,631.00); therefore, income tax should be withheld.	- LOW
Step 2 Step 3 Step 4	Earnings for monthly payroll period	\$3,500.00 -493.00 \$3,007.00
Step 5	 Entry covering \$3,007.00 (over \$2,272 but not over \$3,584) 4% of amount over \$2,272.00 (.04 x (\$3,007.00 - \$2,272.00)) Plus marginal tax amount Computed tax Subtract amount from "TABLE 4 – EXEMPTION ALLOWANCE TABLE" for 5 regular withholding allowances Net amount of tax to be withheld 	\$ 29.40 +35.84 \$ 65.24 -32.92 \$ 32.32 ======
EXAMPLE D:	Weekly earnings of \$700.00, unmarried head of household, three withholding allowances on W-4.	Form DE-4 or
Step 1	Earnings for the weekly payroll period are GREATER than the amount shown in "TABLE 1 - INCOME EXEMPTION TABLE" (\$376.00); therefore, income tax should be withheld.	LOW
Step 2 Step 3	Earnings for weekly payroll period	\$700.00 -114.00
Step 4 Step 5	Taxable income	\$586.00 \$ 2.48 +8.27 \$ 10.75
	3 regular withholding allowances Net amount of tax to be withheld	-4.56 \$ 6.19 =====
NOTE:	Employers may determine the amount of income tax to be withheld for an annual payroll per prorate the tax back to the payroll period. This method may be useful to employers who have being paid for more than one payroll period and want to conserve computer memory by storiannual tax rates, wage brackets, deduction values, and tax credits.	e employees
EXAMPLE E:	Semi-monthly earnings of \$1,500.00, married, and claiming four allowances on Form DE-4 of	r W-4.
Step 1	Earnings for the semi-monthly payroll period are GREATER than the amount shown in "TAB INCOME EXEMPTION TABLE" (\$815.00); therefore, income tax should be withheld.	LE 1 - LOW
Annualized wage Step 2 Step 3	es and salary (24 x \$1,500.00)	\$36,000.00 -5,920.00
Step 4	Taxable income	\$30,080.00
Step 5	 4% of amount over \$27,250.00 (.04 x (\$30,080 - \$27,250)) Plus marginal tax amount Computed annual tax Subtract amount from "TABLE 4 - EXEMPTION ALLOWANCE TABLE" for 4 regular withholding allowances 	\$ 113.20 +430.04 \$ 543.24 -316.00
	Annual amount of tax to be withheld	\$ 227.24 \$ 9.47

NOTE: Employers may determine the amount of income tax to be withheld for an annual payroll period and figure

the tax for the payroll period. This method may be useful to employers who have employees being paid for a lump sum, or a yearly amount not withheld on; and want to conserve computer memory by storing

only the annual tax rates, wage brackets, deduction values, and tax credits.

EXAMPLE F: Annual earnings of \$36,000.00, monthly pay period, married, and claiming four allowances on Form DE-4

or W-4.

Step 1 Earnings for the annual payroll period are GREATER than the amount shown in "TABLE 1 - LOW

INCOME EXEMPTION TABLE" (\$19,571.00); therefore, income tax should be withheld.

Annualized v	wages and/or monthly salary (12 x \$3,000.00)	\$3	6,000.00
